

**NEW JERSEY RECREATION AND PARK ASSOCIATION**

**Aquatic Section Annual Meeting and Conference**

**Heavenly Farms Art Center**

**721 Cranbury Road**

**East Brunswick, NJ 08816**

**Wednesday, April 10, 2019**

**9:30am-4:45pm .3 CEU**

Join the New Jersey Recreation and Park Association’s Aquatic Section for their Annual Re-organization Meeting and Conference. A great opportunity to share the industry’s latest information, exchange ideas, visit with vendors, discuss the election process of the new Aquatic Section Officers and get the latest updates on state and national legislation. You’ll have an opportunity to meet with aquatic equipment and service providers as you plan for the 2019 Season. Morning Coffee, Snacks and Lunch included!

Following the business portion of the meeting, we will hear from some of the industry’s best with the following presentations:

***Don’t Outsmart Your Test Kit:** Are you in need of a chem check checkup? Operators are equipped with great science right at their fingertips, but often don’t utilize their test kit to its full potential. In this session we’ll discuss the importance of water chemistry, the methodology behind great numbers, common test kit errors and chemical reporting that goes beyond your state code requirements. Better water, safer swimmers and a happy health department are just a few drops away. (Tim Auerhahn, Aquatic Council, LLC)*

***It’s My Summer Too! Making In-Service and Training Fun:** Across the country, thousands of people, you and old will be hired to work as lifeguards at pools, lakefronts and waterparks. Lifeguards are a vital part of any aquatics operation- but most of these guards are sacrificing some form of summer freedom to work at your facility. How do aquatics operators hire, train, and retain their guards year to year? It’s simple. Make the work fun, engaging and meaningful. Learn how to engage your guards with practical tips and tricks that will leave your guards wanting to spend time at work! (John Roche, Crystal Spring Family Waterpark, East Brunswick, NJ)*

***Beyond the Lifeguard Chair-** Is your swimming pool safe? Most aquatic professionals answer with a quick "yes", but a deeper dive reveals aquatic risks lurk around every corner. In this session we'll discuss the hidden threats related to aquatic risk management, benefiting both seasoned aquatic professionals and new managers alike. (Tim Auerhahn, Aquatic Council, LLC)*
