

NJRPA Health and Safety Conference Protocols

In an effort to provide a safe environment for learning and networking for our 350 delegates, exhibitors, and speakers, NJRPA has developed the following Health and Safety Protocols. NJRPA will closely monitor guidance and continue to adapt these measures as necessary leading up to the start of the Conference.

This policy includes any event held in Harrah's Waterfront Conference Center. Further, NJRPA has designed the registration area, exhibit hall floor plan, meeting rooms, session schedule, and all aspects of the Conference with safety in mind. There will be hand sanitizer stations throughout the Convention Center and all meeting rooms and facilities used will be routinely disinfected.

1. Masks are required to be worn by all Conference attendees while in the Harrah's Waterfront Convention Center.

All attendees will be required to wear a face mask at all times while in the venue, except as necessary to consume food or beverage. Disposable masks will be available at the registration desk upon request. Masks must snugly cover the nose, mouth and chin.

2. Proof of full vaccination or a negative COVID test is required for all Conference attendees, including delegates, exhibitors, and speakers.

All attendees will need to provide proof of full vaccination or proof of a negative COVID-19 test taken within 72 hours, prior to or at time of check in at the Harrah's Waterfront Conference Center.

For more information on the NJRPA Health and Safety Conference Protocols and the NJRPA Health and Safety FAQs please visit <https://njrpa.org/NJRPA-Annual-Conference>

Additional Education Sessions and Exhibit Hall Protocols

- Harrah's will use room foggers to sanitize the session rooms (and other spaces) after every session.
- Each night Harrah's will also disinfect the session rooms, the exhibit hall, and the banquet space.
- We are using larger spaces for educational rooms both upstairs and downstairs, and expanding the ballroom. Session rooms will have classroom style seating to provide social distancing. Most rooms will be able to accommodate 84 attendees. There will be two moderators per session. Moderators will monitor room capacity.
